

Hannah Eckvahl

I am a 16 year old girl from Rancho Cucamonga, CA and I love to race bicycles. I race mountain bikes in the spring and for fun and to keep fit, I race cyclocross in the winter. I love racing cross-country and when I get a chance, I help my high school mountain bike team maintain the trails in the San Gabriel Mountains.

This year, I am racing for the San Gabriel Composite High School Mountain Team in the So-Cal High School Cycling Race Series and will continue to race as an independent rider in the Kenda Cup Race Series. When I am not on my bike, I maintain a 4.0 grade point average (4.5 weighted from honors classes). In the future, I would like to major in chemistry and become a research scientist. It is also my goal to one day be a successful National and International racer. Last year, I placed first in my division in the So-Cal High School Cycling League and won the California State Championships as well. My racing goals for this year include winning the Junior Varsity Division in the So Cal High School Cycling League, the California State Championships in JV, to podium at the US National Cyclocross Championships and the National Mountain Bike Championships.

On a personal level, I love to meet new people and talk to them about our sport. Given the opportunity, I would represent my sponsor not only on the podium but every time I ride and talk to people. I believe I would be a great ambassador for my sponsors.

Results:

Race	Category	Place
US National Championships (cyclocross)	Jr Girls 15-16	9 th
High School Mountain State Championship	Freshman Girls	1 st
